PROJECTS

Threads of Artisans

01/2024 - 05/2024   Lucknow

Developed 'Threads of Artisans,' an online shopping portal that bridges traditional craftsmanship with modern technology, offering a curated collection of handcrafted treasures from artisans worldwide

- Empowers local artisans across India by providing them with a platform to showcase their craftsmanship
- Seamlessly integrates traditional craftsmanship with a modern online shopping experience
- Showcases artisanal skills from various regions of India
- Promotes cultural heritage preservation and sustainable artisanal practices
- Technologies used : React, Node JS, Express, MonoDB, HTML5, CSS3, Bootstraps

SKILLS

ReactJS · Html5 · Css3 · Java · Javascript ·

Python · MongoDB · MySQL · Node.js ·

Oops · Github

SUMMARY

Summary:
MCA graduate from BBD University with a CGPA of 8.8 and a BCA from Rajju Bhaiya University with a 76% aggregate. Proficient in Java, and JavaScript, with hands-on experience in React, Node.js, and MongoDB through internships at CodeSoft Technologies and Coding Samurai. Developed key projects like "Threads of Artisans" and multiple practical applications, showcasing strong web and Java development skills.

EXPERIENCE

Web Developer Intern   08/2023 - 09/2023

CodeSoft Technologies Pvt. Ltd   (Virtual)

- Spearheaded the development of three web projects: Responsive Portfolio, Interactive To-Do List, User-Centric Calculator
- Responsive Portfolio: Utilized HTML and CSS to create a responsive portfolio showcasing various projects, emphasizing clean design and cross-browser compatibility
- Interactive To-Do List: Developed a dynamic to-do list application using JavaScript, focusing on user interaction and data persistence
- User-Centric Calculator: Built a calculator with HTML, CSS, and JavaScript, prioritizing user experience and interface design
- Gained comprehensive web development experience, tackling practical challenges and employing a variety of technical skills to deliver robust solutions

Java Developer Intern   09/2023 - 10/2023

Coding Samurai   (Virtual)

- Led the development of three Java-based projects: a CLI To-Do List, a basic calculator, and an academic-grade calculator
- Enhanced intern coding proficiency by 40% through structured code reviews, pair programming sessions, and regular feedback
- Achieved a 25% reduction in bug rates by implementing rigorous testing protocols and best practices in software development
